

Surgical Oncology 3rd year **Clinical Clerkship**

Welcome to the surgical oncology service. In your brief time on the service, we would like for each of you to get some exposure to each aspect of surgical oncology: breast, melanoma/soft tissue, and gastrointestinal malignancies. You will have the opportunity to participate in conference, clinic, and the operating room.

Every Tuesday morning at 0700 there is a surgical oncology pre-operative meeting where cases, complications, and two articles will be discussed weekly. The articles are available the Friday prior to conference on the educational website:

<http://www.cinj.org/education/SurgOncEducation.html>

The surgical oncology faculty requests that you wear professional attire to the Tuesday morning conference and any other clinic/conference setting.

I will serve as your contact person for the rotation. Please check with me regarding which additional conference to attend on Tuesday mornings after the 0700 conference. If at any time you have a question about the schedule or any other aspect of your time on the surgical oncology service, then you should contact me. My office number is 732-235-7563. My cell number is 732-687-2184.

Attached you will find a schedule. All clinics are located at CINJ in the Women's Center on the first floor. From time to time, faculty will be away or there will be a change. If this occurs, then please move on to something else productive (another clinic or a different OR). The residents should be aware of the faculty schedule for the week, so they can help direct you. If you are unsure where to be for the day, then contact me.

Sincerely,

Christopher Gannon, M.D.
