

UNDERSTANDING MYELOFIBROSIS

A Perspective for the Advanced Oncology Nurse

Wednesday, October 29, 2014

6 pm registration, 6:30 pm program start

**Steakhouse 85
85 Church Street
New Brunswick, NJ 08901**

*This is a promotional event sponsored by Incyte Corporation,
in collaboration with ONS:Edge, Inc.*

Myelofibrosis (MF) is a rare bone marrow disorder and hematologic malignancy that affects approximately 1 in every 100,000 people in the United States. Hear from advanced nurses on how to help patients diagnosed with this rare but serious disorder.

Program Objectives

- Learn about the pathology and symptoms of myelofibrosis (MF)
- Learn about diagnosing and treating patients with MF
- Discuss resources for you and your patients with MF

No continuing nursing education (CNE) contact hours will be awarded

125 Enterprise Drive
Pittsburgh, PA 15275

2 Easy Ways to RSVP

Online: www.onsedge.com/incytemyelofibrosis

Save time, receive instant confirmation — RSVP online!

Phone: 877-588-3343 or 412-859-6108

Please note this program is intended for Healthcare Practitioners Only.

Consistent with PhRMA Guidelines, spouses and other guests of the Healthcare Practitioner are not permitted to attend.

Seating for the Program

- Your RSVP is not a guarantee of admission as seating is limited.
- Seating for people pre-registered for this program will begin 30 minutes prior to program start time.

NOTE: Open seating begins 10 minutes before the start of the program. "Open seating" means that seats not occupied at that time will be forfeited to on-site registrants. Doors close at the posted program time or when all seats are filled, whichever comes first.
