

About Us

Overlook Medical Center is recognized by U.S. News & World Report as among the best hospitals in central New Jersey. Carol G. Simon Cancer Center and Breast Center at Overlook are among the institution's many clinical centers of excellence and are recognized nationally for patient care. Our program is accredited by the National Accreditation Program for Breast Centers (NAPBC) of the American College of Surgeons, the highest form of clinical and quality care recognition for breast centers in the United States. In addition, we are identified as a Best Practice hospital for Patient Navigation and have been chosen to be part of the NAPBC Best Practice Repository. Carol G. Simon Cancer Center has also received the Outstanding Achievement Award and Three Year Approval with Commendation: American College of Surgeons Commission on Cancer for the past three accreditation cycles. Our team is committed to providing the highest level of prevention, diagnosis and care to our patients, including a comprehensive Breast Cancer Prevention Program, with genetic evaluation and testing; tomosynthesis (3-D) screening mammography; a full array of biopsy options; the most advanced surgical innovations, such as nipple-sparing mastectomy; the latest chemotherapeutic and biologic treatments; and accelerated prone breast radiation.

Metastatic Breast Cancer Symposium

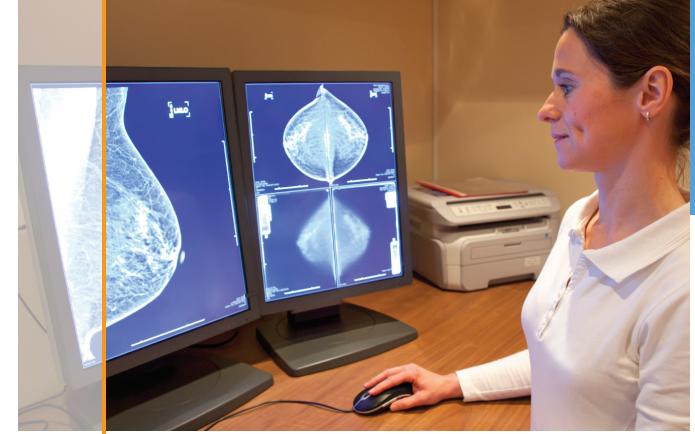

Thursday September 10, 2015

Bouras Auditorium
Overlook Medical Center
Summit, NJ, 07901

Learning Objectives

- › A review of the current literature data and clinical trials in the diagnosis and management of metastatic breast carcinoma including radiation, surgical and chemotherapy/ biologic treatments.
- › As more breast cancer patients are living longer, the management of metastatic breast cancer is becoming more and more important. Our goal is to educate our oncology professionals as well as primary care and allied health services about the latest advances in treatment and survivorship as well as the ever increasing options to improve both the quantity and quality in the life of these important patients.

Physicians should only claim credit to commensurate with the extent of their participation in the activity. Atlantic Health System is accredited by the Medical Society of New Jersey to provide continuing medical education for physicians.

Speakers

Harold J. Burstein, MD, PhD is an assistant professor of medicine at Harvard Medical School and a medical oncologist in the Breast Oncology Center at Dana-Farber Cancer Institute. He graduated from Harvard University before earning his MD at Harvard Medical School. Burstein also received a PhD in cellular immunology and a master's degree in history of science from Harvard. He trained in internal medicine at Massachusetts General Hospital before his oncology fellowship at Dana Farber Cancer Institute. In 1999, he joined Dana Farber Cancer Institute and Brigham & Women's Hospital, where he is a clinician and clinical investigator with a practice devoted exclusively to breast cancer. He is board certified in medical oncology and internal medicine. Burstein serves on the National Comprehensive Cancer Network Breast Cancer Panel, the CALGB Breast Committee, and several working groups in the American Society of Clinical Oncology focusing on breast cancer.

Helen A. Pass, MD, FACS is Co-Director, Women's Breast Center and Chief of Breast Surgery at Stamford Hospital. She graduated from the University of Michigan School of Medicine in Ann Arbor. She performed her general surgery residency at the University of Texas Health Science Center, in Houston and at Georgetown University Hospital in Washington, DC. She completed a surgical oncology fellowship, as well as served as a Senior Investigator at the Surgery Branch of the National Cancer Institute, National Institutes of Health. She is certified by the American Board of Surgery and limits her practice to surgical diseases of the breast. Dr. Pass is a Governor of the American College of Surgeons and sits on the Executive Committee of the Commission on Cancer. She is a Past President and former Chairman of the Board of the American Society of Breast Surgeons. She has been instrumental in the creation of the multidisciplinary Breast Fellowship, and served on the Training Committee of the Society of Surgical Oncology and the Breast Specialty Training Committee of the American Society of Breast Diseases. She is also a founding member and past member of the Executive Committee of the National Accreditation Program for Breast Centers.
