## **Oncology Nursing Education Symposium**

**Target Audience:** Nurses from all settings, Pharmacists, Physical Therapists, Respiratory Therapists, Student Nurses and Faculty.

**Purpose:** This program will explore the diverse topics in care of the Oncology patient. The emphasis will be on client centered needs emphasizing critical thinking for care that reflects best practice.

### **Learning Objectives:**

After attending this program the participant will be able to:

1. Describe the anatomy and physiology of the normal and ill brain.
2. Describe the surgical options for treatment of brain cancer.
3. Describe the Radiation Oncology options for treatment of brain cancer.
4. Describe the cultural needs of the Muslim patient in American Health Care system.
5. Describe the management of seizures caused by brain tumors.
6. Demonstrate competence utilizing the Aspira Catheter for drainage and the BBraun PCA Pump for administration of “HIGH Dose” analgesia.
7. Describe the research related to Knowledge of Palliative Care.
8. Describe the role of the Medical Oncologist in treatment of Central Nervous System malignancies.
9. Describe the history and experience of members of the Lesbian, Gay, Bi-Sexual and Transgender community.
10. Describe the process and challenges of getting back to “normal” after Brain Cancer.
